Motorfluggruppe Zürich buys two Sonaca 200s

Namur (Belgium), October 8, 2020 - As part of its efforts to rejuvenate its fleet of aircraft, Motorfluggruppe Zurich (Aeroclub and Flying School) has just placed an order for two Sonaca 200 *Trainer Pro* versions.

"We have chosen the Sonaca 200 because it is a robust and easy to repair trainer aircraft that can be flown even by people of different sizes. With a payload of 270 kg and very good endurance, the Sonaca 200 is an excellent aircraft for basic training. It is also certified for night flights. At the same time, our MFGZ maintenance center will expand its service offering and offer maintenance for Sonaca 200 aircraft and Rotax engines" Andreas Carl, Head of Operations, Motorfluggruppe Zurich (MFGZ, Switzerland).

"We are very pleased that Motorfluggruppe Zurich has selected the Sonaca 200 after a rigorous and thorough comparative study. The Sonaca 200, a certified two-seater developed in close collaboration with the field, is an aircraft that is perfectly suited for ab-initio training, but also for navigation because of its payload and autonomy" Pierre Van Wetter, Chief Commercial Officer Sonaca Aircraft.

Delivery of the two Sonaca 200 *Trainer Pro* aircraft is scheduled for July 2021.

About Motorfluggruppe Zurich

MFGZ has been successfully training pilots since 1929 thanks to a team of experienced instructors, a good infrastructure and an attractive training offering. As a member of the Swiss Flying School Association SwissPSA (CH.ATO.0187), MFGZ meets the strict requirements of the European Aviation Safety Authority EASA. MFGZ is based at Zurich Airport. <https://mfgz.ch>

About Sonaca Aircraft

Sonaca Aircraft is a subsidiary of the Sonaca Group, a major stakeholder for over 80 years in the development, manufacture and assembly of advanced aeronautical structures for the civil, military and space markets. Sonaca Aircraft is 90% owned by the OEM Sonaca. Sonaca Aircraft's business covers the development, certification and marketing of the "Sonaca 200" single-engine two-seater aircraft, specially designed and adapted for training and leisure flights. EASA-certified in the CS-VLA airworthiness category, the Sonaca 200 is distinguished by its robust all-metal structure, its smooth flight behavior, its high payload and its exceptionally low operating cost, thanks to the expertise of a world-class aeronautics group. www.sonaca-aircraft.com
